Mr. Hawksley has been working on sustainability, educational, public policy and citizenship issues for his entire adult life. He has been a Registered Architect since 1989 and sees architecture as the door for advocacy work and envisioning a sustainable future. He has been project manager on a wide variety of master planning, consulting, environmental and building projects and a leading policy maker for Kent City Council. He has a strong sense of vision and is capable of managing a diverse range of multiple projects simultaneously. He has been involved in a leadership capacity with a wide variety of organizations and understands the complexities of large organizations and the need to build consensus.

EDUCATION

- BS Architecture: Kent State University
- Master Architecture: Kent State University
