Mr. Hawksley has been a Registered Architect since 1989 and has been project manager on a wide variety of master planning, consulting, environmental and building projects and a leading policy maker for Kent City Council. He has a strong sense of vision and is capable of managing a diverse range of multiple projects.   He has worked on projects including offices, single family residences, multi-family, schools, small retail, restaurants, churches, and a variety of others. He especially enjoys working on historic buildings and completing adaptive re-use projects. A representative sample of his work can be seen at www.designwithavision.com
